Multimastic C

Firestop Coating

Fire resistance
≤ 240 minutes

Applicability
Can be used outdoors

Working life
25 years

Paintable
After 24 hrs

Firestop Coating

Multimastic C is a waterborne firestop coating based on a sustainable polymer system. Among other things, this coating is used for the fire-resistant treatment of rock wool Multimastic FB1 / FB2 firestop boards and around cable trays and pipe and cable penetrations. This provides a fire-resistant and smoke-proof seal to adjacent rooms.

Multimastic C forms part of the Mulcol® Penetration Seal System. Multimastic C must be used in combination with the Multimastic FB1/FB2 firestop boards and Multimastic SP firestop mastic.

Advantages

- CE-certified
- Quick and easy application
- Environmentally and user-friendly
- Permanently flexible
- Can be used outdoors (ask for the conditions)
- Water and frost-resistant once fully hardened
- Working life of 25 years

Applications

- Rigid walls and floors
- Flexible walls
- Firestop boards

- Metal pipes up to Ø 324 mm with insulation
- Cable trays, cable ladders, electric cables and cable bundles
- Blank seals and joints
- Aluminium composite pipes with insulation

Technical data

Colour	White
Shelf life	12 months in unopened packaging at a temperature between +5 °C and +30 °C
Application temperature	+10 °C to +30 °C
Temperature resistance	-30 °C to +80 °C (once hardened)
Fully hardened	3 to 5 days, depending on thickness and temperature
BREEAM VOC	13 g/l
Reaction to fire	Class F in accordance with EN 13501-1
